## ABOUT THE COMMUNITY RADIO FUND OF CANADA

The Community Radio Fund of Canada (CRFC) is an independent not-for-profit organization created in 2007. The CRFC seeks and secures resources to fuel the production, distribution, and sustainability of Canada's community audio broadcasters through dynamic funding programs.

The CRFC advocates and supports their contribution to the media sector in Canada, reflecting the diversity of their listeners, promoting independent local content, and building their capacity to connect and inform the population they serve.

## ABOUT THE RADIOMETRES PROGRAM

The CRFC is pleased to launch the 15th round of its Radiometres funding program.

The funding distributed through Radiometres comes from Canada's private radio broadcasters through a portion of their Canadian Content Development (CCD) contributions as mandated by the Canadian Radio-television and Telecommunications Commission (CRTC). We thank them for their contribution to the community radio sector.

Radiometres supports projects that allow campus and community radio stations to maximize their impact on their listenership and their communities through projects connecting with one of the program's three priorities:

**Content Creation**

**Skills Development**

**Digital Initiatives**

These priorities were chosen to reflect the aims of CRFC funding as well as the desired impact of CCD funding. By targeting these outcomes over the long-term, the CRFC hopes to foster the development and sustainability of campus and community radio stations.

---

## PROGRAM OVERVIEW

### Funding period

The project must start after **September 1, 2025** and before **March 1, 2026**.

For more information, visit the following [link](#) or contact us at [prog@crfc-fcrc.ca](mailto:prog@crfc-fcrc.ca).

Any recipient not meeting the terms of an agreement with the CRFC will not be eligible for any new funding until they have fulfilled these obligations. Contact your CRFC program officer if you think this may affect your application.

## Project continuation

Applicants may request funding for consecutive rounds to implement the continuation of a project as long as they demonstrate progress in their objectives and measurable results for each round. Funding received for the first phase of a project does not guarantee funding for the subsequent phase.

New projects will be prioritized over previously funded projects.

## Eligible expenses

Eligible expenses are those directly related to the implementation of the project proposed in the funding request. **The CRFC reserves the right to reject any expense not compliant with the objectives of the program.** Radiometres funding must not be used for the operational activities of the station. Project equipment expenses will be assessed on a case-by-case basis. An application will not be recommended for funding if the majority of the expenses are deemed ineligible by the CRFC.

***See Appendix 2 for examples of eligible and non-eligible expenses.***

## Partnerships

The CRFC accepts applications submitted in partnership with other collaborators, including other radio stations or partner organizations.

If your project includes partnerships and is moved to the second stage of the application process, you will be asked to include confirmation letters from your partners with your application.

---

## First stage

The first stage consists of a station profile and a project proposal.

### ***Station Profile***

This section is designed to give evaluators contextual information about your station and your community. It includes questions about your employees, your revenues, the type of programming you produce, and the community your station serves. **You are not evaluated on this aspect of the application.**

For returning applicants, the content of the station profile can be reused from previous rounds. We encourage you to update the content as needed with every application to ensure accuracy.

### ***Project Proposal***

You will be asked to present the activities, goals, and rationale of the project as well as the expected impact on your station and your community. Depending on the selected priority, you will be asked for more details on the activities and outputs of the project. An initial project budget will also be required at this stage.

Applications submitted during this stage will be evaluated and selected applicants will be invited to complete their application during the second stage of the process.

## Deadline

The CRFC will accept applications for funding until **Tuesday, February 18th, 2025 at 3:00 p.m. EST**. Funding requests submitted late will not be eligible for funding.

***After submitting your application on the platform, you will receive a confirmation email. If you haven't received an email, we invite you to contact the CRFC team to confirm the submission of your funding application.***

---

The CRFC will verify the eligibility of the request and may ask for clarifications. You will then have one week to provide this information. All eligible funding requests will be subject to a thorough review by an independent selection committee.

## Second stage

The second stage is reserved for applicants selected during the first round of evaluation. This step is centered on the management of the project including the presentation of a timetable of activities and project monitoring and risk management strategies. An updated version of the project budget will also be required at this stage.

## Deadline

The CRFC will accept applications from selected applicants until **Monday, May 12, 2025, at 3:00 pm EST**. Late applications will not be eligible for funding.

Submission of an application does not guarantee funding for the proposed project. It is a competitive process and is subject to the availability of funds.

---

## Contact us

Before submitting your application, we encourage you to contact the CRFC to discuss your project and funding application. The CRFC can review your draft application and provide advice during the call for funding applications. Remember that the CRFC staff is the most qualified to give you feedback that meets our assessment criteria.

The CRFC can guarantee a review of your application if it is submitted 5 days before the application deadline. Please note that having the CRFC review your application beforehand does not guarantee funding.

Recipients are required to acknowledge financial support from the CRFC according to the CRFC public acknowledgment guidelines.
